MISSISSIPPI SECURE FOOD SUPPLY PROGRAM

ENSURING FOOD FOR TOMORROW

BUSINESS CONTINUITY

BIOSECURITY

MOVEMENT GUIDANCE

ANIMAL HEALTH

WHAT ARE THE BENEFITS OF A PLAN?

A Secure Food Supply Plan improves an operations' ability to:

- **Limit lost income** for operations, haulers, packers/processors, and grocers
- **Limit exposure** of animals through enhanced biosecurity
- Continue movement of animals to **maintain supply** of products to consumers

STEPS TO GET A FREE PLAN

1. Request a Premises Identification Number (PIN)

Contact the Mississippi Board of Animal Health (MBAH) to begin the process.

2. Develop the Plan

Work alongside MBAH to identify a biosecurity manager and write the plan.

3. Train Personnel

Once plan is finalized, train employees and other personnel on the plan and implementation.

4. Review the Plan

Review the plan annually or whenever the operation goes through a change. The plan can be adapted to address new risks and recommendations.
